NUMBER 146.

## FEW AT THE FAIR.

Rain Prevents Many From Seeing the Show.

## LEAKY PLACES IN THE ROOFS.

Several Exhibits Almost Ruined in the Manufacturers' Building—Sunday Closing Still Undecided—Doings of the National Commission—Items Gathered at the White City.

CHICAGO, May 12.—There was scarcely a corporal's guard of visitors at the world's fair yesterday and all these came in the early morning before the showers. Yesterday's rain fully demonstrated that there are still leaky places in the roofs of several buildings, and some two or three exhibits in the manufacturers' building were declared almost ruined.

COMPLETING THE GREAT FERRIS WHEEL.

The world's fair will probably be closed on next Sunday, too. President Higginbotham says so, and he is in a position to know. He is not positive about it, but he has very few doubts. The directory, which will meet tomorrow, will doubtless wrestle with the subject, and it is not at all improbable, many think, that it will repeal the Sunday closing rule, which is at present operative, and pass a rule providing for Sunday opening. But, unless the commission passes upon the rule, President Higginbotham will hardly give an order to open the gates. If the commission remains in session over the day, the action of the directory, should it be for Sunday opening, will come before it, and will, it is thought, be endorsed.

The six months' competition between famous milk-producing breeds of cows began at the dairy building yesterday. The chief object of the test is to determine what breed, all things considered, is the best for milk, cream, cheese and butter production. The strictest rules ever formulated to govern a dairy test are in operation and only three breeding associations, the shorthorn, Jersey and Guernsey, were willing to submit to them. They have 75 cows, representing the pick of their breeds.

They will be milked three times a day, each cow's milk being weighed and the specific gravity and solids in the fluid recorded. Records will be kept of the butter produced by each cow and the results of the test made known after the fair.

At 8 o'clock yesterday afternoon a reception was held in the Belgian exhibit section in the manufacturers' building, which marked the opening of the exhibit to the public. The reception was not a formal one, and there was no speech making, but invited guests were simply and cordially welcomed by A. Veruyse, president of the Belgian commission; A. Simis, commissioner general; Edward Guette, deputy commissioner general, and the three secretaries, Raymond Le Ghait, Andre Simonis and Raymond Vaxelaire. Among the guests were Duke De Veragua, Mayor Harrison, President Higginbotham, Director General Davis, the foreign commissioners and many prominent citizens of Chicago.

German exhibitors will give a splendid banquet in honor of the commissioners of the German empire for the world's fair at the Lexington hotel on Saturday evening. The German emperor has presented the high decoration of the Red Eagle to the German commissioner for the world's fair, Mr. Wermuth.

The electrical building will not have all its exhibits in place before June 1. Chief Barrett's order to have all ready by Saturday night on pain of having the space taken from those who failed and given to some one else has been received with a shrug. The delay, the exhibitors say, is not due to them. The responsibility, according to them, rests upon the installation department, which has shown a marvelous capacity for keeping loaded cars on the grounds for weeks at a time before delivering them.

Director General Davis has commenced to use the electric launch which has been prepared for him. It is a handsome piece of marine architecture, and the trial trip proved a success.

Eugene Joachin of Vienna was arrested by an officious Columbian guard, and then immediately released by Captain Preston. Joachin was trying to call on Annette Richmond, an old friend, who is employed in the "beauty" show. The guard ordered him from the premises and then arrested him.

The main gallery of the woman's building was redolent of cape jasmynes yesterday. Two thousand of these flowers were sent from Galveston through the lady managers from that state.

The Nicaragua Canal Construction company of New York has completed its model of the Nicaragua canal in the gallery of the transportation building

and placed it on exhibition. The model has been very carefully planned and shows the nature of the canal country very well. The total length of the canal is represented as 170 miles.

General A. T. Goehorn, who was director of the centennial exposition, addressed the national commission yesterday on the subject of awards. He said the centennial secured the most expert judges in all lines, drew up rules for their guidance, paid them well and abided by their decision. He advised the national commission to do likewise.

The fruit exhibit of New South Wales has been received at the fair after being on the way 62 days. The exhibit was delayed between San Francisco and Chicago by accidents, and as a consequence 10 out of the eight cases were spoiled. Two cases of the "Passion fruit" which is unknown in this country were entirely ruined.

## SEVERALTY PLAN CONDEMNED.

Indian Land Question Agitators Have a Strong Meeting.

NEW YORK, May 12.—The question of opening the Indian lands to settlement promises to have a national agitation. At the Waldorf hotel the Indian Land Adjustment league was formed by an enthusiastic meeting of reformers.

Miss Emma C. Sicksels, chairman of the Indian congress at the world's fair was elected president, and William Everett Hicks of New York city secretary.

Miss Sicksels is known as the "Heroine of Pine Ridge," because of her courageous participation in the Wounded Knee outbreak. Mr. Hicks was secretary of the international land congress in Paris during the exposition. Letters of encouragement were read from Rev. John Hall, D. D., Henry George and others.

In opening the meeting Miss Sicksels said that she knew the sentiment on the land question among 20 tribes and that the genuine Indians are against allotment in severalty. Any seeming compliance on their part, she declared, is due to misrepresentation or coercion.

Two events of great importance to the Indian race, she said, are about to happen. One, the opening of the Cherokee strip; the other, the appointment of a commission to negotiate for the lands of the Cherokees, Choctaws, Chickasaws, Creeks and Seminoles. Miss Sicksels said that the commission should be composed of unbiased men who are not wedded to severalty or any other plan but can view the situation with candor. Mr. Hicks said that every land opening is a saturnalia of vice and crime and a riot of land grabbers in which the interests of the real homeseekers are lost.

"The only way to solve the Indian land problem," he said, "is to have the lands plotted by a government commission and disposed of by leases based on the rental value of the land. The Cherokee strip to be opened a few weeks hence is to be 'Oklahomaized' or scrambled for, but we hope to change future openings into an orderly selection of sites. It is sufficient condemnation of the severalty plan that every land grabber is heartily in favor of it and that the opposition to any change in the severalty scheme may be traced to an immense ring of speculators."

A committee will be sent to Washington and branches of the league will be established in every city of the country. Among those present were John Hamilton Dalton, Charles Frederick Adams, Thomas Mitchellson Craig, Henry W. Roosevelt of Washington, W. Francis Holiday and others.

Y. M. C. A.

The New President Arrives and Presides Over the Convention.

INDIANAPOLIS, May 12.—Mr. G. N. Bierce, the newly elected president of the Young Men's Christian association, arrived from Dayton and assumed the gavel at the morning session. Mr. Bierce expressed his gratitude for the honors in a little speech at the opening of the convention, and promised that the duties of the position should have the most efficient service that he could render.

The morning program consisted of scriptural reading and prayer; announcement of standing committees by the president, Mr. E. L. Shuey of Dayton read a paper on the "Educational Work in the Associations; Best Form and Methods."

The attendance at the second day's session was much better than the first. After the new president was inducted into office, and finished his speech, the routine committee work was taken up and all standing committees were appointed. Several papers were read and discussed.

## Female Suffragists.

DELAWARE, O., May 12.—Lowe Chapman and Susan B. Anthony addressed the Ohio Suffragist association. The following were elected officers of the state association: President, Mrs. C. M. Everhart, Massillon; vice president, Mrs. M. H. Elwell, Willoughby; corresponding secretary, Mrs. Mary Beaty, Massillon; auditor, Harriet L. Henderson, M. D., Columbus; member executive committee of National Woman's Suffrage association, Mrs. A. H. Peters, Columbus.

## The Strike Ended.

MUNCIE, Ind., May 12.—The carpenters' strike is practically settled. The carpenters asked for a raise from 25 to 30 cents per hour. Four hundred carpenters have been idle for a week. Last night a meeting was held and no understanding was reached, but this morning a large majority of them went to work and it is thought the strike is over. All

## Powerhouse Burned.

ROCHESTER, May 12.—The trainhouse and powerhouse of the Grand View Beach electric road, which runs along the lake shore for several miles, was burned to the ground. Thirteen out of 14 cars, 500 tons of coal and all the tools and appliances are destroyed.

## LEEVE GIVES WAY.

Big Break in the Mississippi River Embankment.

## ENORMOUS DAMAGES DONE.

Thousands of Acres of Cotton and Other Growing Crops Destroyed—Several Villages in the Course of the New Made River—The Crevasse Widening Rapidly With but Slight Hopes of Stopping It.

GREENVILLE, Miss., May 12.—The first break in the levees restraining the mighty Mississippi river occurred on the Arkansas side about 27 miles above Lakeport, Ark., and about 11 miles below this city. The crevasse is in a small levee against which was about seven feet of water. The width of the break is about 200 feet and is widening rapidly. While this break will inflict considerable damage upon the section of country south of the break, the relief given to the levees on the Mississippi side will be material.

The county of Chicot, in which is located the scene of the crevasse, will mainly be the sufferer. About 5,000 acres of land in that county planted in cotton will be inundated. Directly south of Chicot, Ark., lies East and West Carol parishes, La. These will also receive the water from the crevasse, as will probably Madison and Tensas. The probable course of the water from the Lakeport crevasse will be southward through Bayou Mason, thence into the Bouef river to Red river, through which it will return into the Mississippi. The total amount of damage to be done will be impossible to estimate, but as the crop is in a forward condition it will be great.

Efforts to tie the ends of this crevasse will be made at once. The levees on the Mississippi side are in excellent shape. Guards are patrolling them night and day. These invaluable embankments are expected to hold intact against a possible height at this place of 45 or 45 1-2 feet. The river now is still stationary, possibly due to the Lakeport break. The gauge reads 43.6 feet, a rise of only one-tenth of a foot in the past 24 hours. The stage is .33 of a foot below the highest recorded gauge reading at Greenville.

## TOWN SCORCHED.

Thirty Houses Destroyed by Fire at Spring Lake, Michigan.

GRAND HAVEN, Mich., May 12.—The town of Spring Lake, two miles from here, was badly scorched by fire. Over 30 houses were destroyed, including one belonging to Walter Gee, valued at \$10,000. The two largest churches, the schoolhouse and city hall are also in ashes. The fire burned itself out at the edge of the lake.

The prompt response of the Muskegon and Grand Haven fire departments to the call for help saved the business part of the town.

Only two business houses were burned—owned by Mulder & Son. The loss will be heavy, and only the business part of the town is left.

## Extradition Treaty.

WASHINGTON, May 12.—The extradition treaty with Russia is expected here by the next European mail, but has not yet reached the state department. Reports as to its receipt here are said by confidential officials at the White House and at the state department to be destitute of truth. The promulgation of the treaty, it is anticipated, will immediately follow closely upon its receipt in the ordinary routine of official business. Its arrival is expected within the next three or four days. Ratifications were exchanged in Russia April 26.

## War Vessel Ordered to Nicaragua.

WASHINGTON, May 12.—It has been deemed desirable, because of the revolution in progress to station a United States war vessel on the west coast of Nicaragua, as well as on the east coast, to protect American interests. The United States steamship Alliance has been ordered to sail from San Francisco for Corinthia, Nicaragua. The United States steamship Atlanta is on her way to Greytown, on the east coast of Nicaragua.

## Both Killed by One Bullet.

SPRINGFIELD, Mass., May 12.—Warren G. Butterworth, aged 70, of Warren, committed suicide by shooting himself through the head with a rifle. His daughter Emma, aged 23, while trying to prevent her father from killing himself, received the bullet in her brain after it had passed through her father's head, and died two hours later.

## Treasury Statement.

WASHINGTON, May 12.—The official figures of the treasury department put the gold balance at \$99,733,610. This does not include the bulk of gold offered by the St. Louis banks nor various other smaller offers, so that the reserve is really quite a little over the \$100,000,000 mark. The best information is that no gold will be exported this week.

## General Edward D. Townsend Dead.

WASHINGTON, May 1.—General Edward D. Townsend, for a number of years adjutant general of the army, died at his residence in this city. He was appointed from Massachusetts in 1833 and served about 47 years in the army, during which he was twice brevetted for faithful, meritorious and distinguished service.

## Nonunion Man Beaten.

TONAWANDA, N. Y., May 12.—William Strough, a non-union workman working at Fassett and Bellinger's docks, was so severely beaten by union lumber shovers that he was taken to the hospital. His four assailants have been arrested. Serious trouble is expected.

## IN THE HIGHEST TRIBUNAL.

Supreme Court Decision of Interest to Newspaper Publishers.

WASHINGTON, May 12.—Among the cases disposed of yesterday in the supreme court of the United States, a record by the way seldom equalled in the history of the court, except on the last days of a term, was one in which newspaper publishers were especially interested. It was the case of the Metropolitan National bank of New York vs. the St. Louis Dispatch company and Henry L. Sutton, trustee, appealed by plaintiffs from the circuit court for the eastern district of Missouri. Involved in the case was the question whether or not a certificate of membership in the Western Associated Press was so far within the restrictions of a mortgage that it remained subject thereto till the debt which it was given to secure had been discharged. The court did not find it necessary in explicit words to pass upon this point, but disposed of the case on different grounds.

A note for \$15,000 was given by the St. Louis Dispatch company, June 1, 1877, to run 30 months, which passed into the possession of the Metropolitan National bank. To secure its payment a mortgage was given, covering all the property and franchises of the Dispatch company present or to be acquired during the life of the note, including a certificate of membership in the Western Associated Press. Before the note became due, the property of the Dispatch was sold under a second mortgage, consolidated with The Post and published as The Post-Dispatch by the Dispatch Publishing company until the date when the \$15,000 note became due, the Dispatch Publishing company paid the interest, but refused to pay the principal of the note at maturity Dec. 1, 1879.

The bank did not file its bill of complaint until July 1, 1887. It then asked that the property acquired by the successor to the Dispatch company, including the new certificate of membership of Western Associated Press, be held subject to the lien of its mortgage, but the court below sustained its dismissal.

The supreme court, in an opinion prepared by Chief Justice Fuller, affirmed this judgment of the circuit court on the ground of laches on the part of the national bank complainant. Discussing the press franchise branch of the case, the chief justice said: "Apparently the association had the right to accord or deny the privilege of membership as it saw fit, and whether its action in the admission of the new corporation to membership was wholly independent of certificate No. 38 (the one held by the old Dispatch company and covered by the mortgage at issue), or based upon the substitution of one share for the other, it would seem to follow upon the assumption that a membership could be pledged or mortgaged without its consent; that the association was directly interested in the contention raised by the complainant in respect of that action, and that the circuit court was right in holding that the question ought not be determined in the absence of the association as a party."

## Big Fire in Pittsburg.

PITTSBURG, May 12.—Glockler's new 6-story stone front building, 1127, 1129 and 1131 Penn avenue, and Arnfeld's 3-story block adjoining were completely destroyed by fire. Several houses on the opposite side of the street were badly scorched and the occupants were compelled to remove hastily. Two firemen were painfully injured by falling stone. Glockler's building was used as a warehouse for butchers' supplies. The fire started in the boiler room and is supposed to have been the work of incendiaries. The loss was \$150,000 with about \$100,000 insurance.

## A Fatal Mistake.

LIMA, O., May 12.—James McNeille, an engineer employed at the Lake Erie and Western shops, was probably fatally poisoned by the use of ammonia. McNeille went into a saloon and called for a drink of bitters. The proprietor's wife was the only one in the place and she got hold of the wrong bottle, giving him ammonia. The man was taken sick with cramps and medical attention was summoned. He is in an awful condition. His mouth and throat were horribly burned. His stomach was also terribly burned, and the doctors say that he can not live.

## Dynamiters' Doings.

MADRID, May 12.—A large can with a lighted fuse attached was found in a street near the parliamentary building early this morning. The nature of its contents is not known. Three dynamite cartridges were exploded in Barcelona late last evening, creating much alarm.

## Barn Burned.

WAPAKONETA, O., May 12.—The large barn of John A. West, four miles southeast of here, was totally destroyed by fire. Three horses, farming implements, hay, corn and oats were consumed. Total loss \$2,000; no insurance. Incendiary.

## After the Paper Trust.

TOPEKA, May 12.—Governor Lewelling and Attorney General Little are after the paper trust of the country, and say they will arrest every representative of that combine that comes into Kansas.

## Booth's Condition Unchanged.

NEW YORK, May 12.—There is no change in the condition of Edwin Booth. Members of the Players' club are of the opinion that the tragedian has but little chance of life.

## Fourth Glass Postmasters.

WASHINGTON, May 12.—The total number of fourth class postmasters appointed yesterday was 151, of which 124 were to fill vacancies caused by resignations and death.

## BIG BANK FAILURES.

Big Concerns Close Up Their Doors.

## INDIANAPOLIS AND CHICAGO.

The Capital National in the Former City and the Columbia National in the Latter—Depositors Will Probably Not Lose Anything by Either Concern.

INDIANAPOLIS, May 12.—The Capital National bank of Indianapolis was compelled to close its doors yesterday through the recent failure of the Chemical National at Chicago. The Chemical bank, as correspondent of the Capital, held \$79,000 belonging to the latter bank, and when the country banks heard of this holding they began demands on the Indianapolis bank.

Dollar for dollar is the promise of President M. B. Wilson. The available assets are \$200,000, of which \$75,000 is in cash. The bank could have secured eastern aid, but it was deemed best to suspend as the holding of the Chemical bank was considered an uncertain asset. It was reported early in the morning that the Chemical was to resume business, and this led the Capital to make a few payments, but when a telegram to the Chemical was unanswered after several hours, the suspension sign went up on the doors.

The bank was organized with \$300,000 capital stock, and pursued a conservative course, refusing, however, during the past few years to enter the clearing house. Stock was recently sold at \$125. The assets and liabilities at the close of the bank's business on Wednesday amounted to \$1,467,962. None of the other banks in the city or state are affected by the Capital's suspension and a very easy feeling prevails in business and banking circles. The other bankers believe all the obligations will be met, for the bank has enough cash on hand to pay 25 per cent of depositors' claims.

Hugh Young of Pittsburg has been ordered to Indianapolis as special bank examiner to determine the exact condition of affairs. A petition was sent to Washington asking that John P. Frenzel, president of the Merchants' National, be appointed receiver of the Capital. About \$5,000 of the funds raised for the National Grand Army encampment are in the bank unsecured.

The following is a few of those who held the largest blocks of stock: P. H. Blue, Sullivan, Ind.; C. H. Doherty, M. B. Wilson, I. A. Wymond, Indianapolis; W. J. Lewis, Evansville; L. P. Sheerin, Logansport; E. S. Wilson, Olney, Ill.; and Allen Tindolph, Vincennes.

## COLUMBIA NATIONAL FAILS.

It Makes the Second Chicago Bank to Close Within a Few Days.

CHICAGO, May 12.—The Columbia National bank of this city has suspended. The deposits were \$1,400,000, and the capital \$1,000,000. Rumors that the institution was in trouble have been current for nearly a week. It did business with small country banks, and was not in esteem with the other banking concerns of the city.

As to the cause of the failure, those who should know say that collections on loans have been poor. Notices announcing the suspension were posted on the doors, and a few moments later James Desjardes, bank examiner, assumed control.

The Columbia National was reorganized two years ago out of the old United States National bank. Estimates by bankers' intimates with its affairs make this showing: Assets—deposits, \$1,000,000; discounts, \$1,250,000; total, \$2,250,000; liabilities, \$1,500,000.

A constant run on the bank since the announcement of the Chemical suspension, decided the directors to close the doors. A call for help was made, but as the bankers were not notified in time for an investigation the request was denied.

## One Failure Causes Another.

SIoux CITY, Ia., May 12.—The announcement of the failure of the Columbian National bank of Chicago, sent the Sioux City engine works to the wall. W. M. Thompson has been appointed receiver of the company.

## OHIO MINERS.

They Will Return to Work but Not Under Contract.

COLUMBUS, O., May 12.—The joint conference of Ohio miners and operators adjourned without having taken definite action on the strike. The subject of machine mining was the point of difference. It is understood that about 17,000 pick miners will go to work without the signing of any scale. This leaves them at liberty to strike at any time. The miners of the Jackson district will not go to work.

President McBride of the miners' union offered a resolution to submit to arbitration the differences as to the scale in certain territory as well as the price to be paid for machine mining, but this was not acceptable to the majority.

Ex-Senator Howells, representing the Massillon district, withdrew all objections previously offered by them against last year's scale and offered to sign it for another year.

The convention finally adjourned sine die without taking any action on the McBride resolution and the strike still continues.

LOGANSPORT, Ind., May 12.—A jury here gave Brakeman William Sullivan of the Panhandle \$4,500 damages for the loss of his right arm. Sullivan had his limb mashed near the wrist while making a coupling at Red Key a year ago.

# **EVENING BULLETIN.** DAILY, EXCEPT SUNDAY. **ROSSER & McARTHUR,** Proprietors. TO MAIL SUBSCRIBERS: One Year, \$3.00 Three Months, 75 Six Months, 1.50 One Month, 25 DELIVERED BY CARRIER: Per Week, 6 cents FRIDAY, MAY 12, 1893. WEATHER INDICATIONS. Light showers; except fair in the extreme southern; cooler; winds becoming north- west. THE Kentucky Press Association will be on exhibition at the World's Fair June 1st. "True to the Boys in the Trenches." Says the Greenup Gazette: "Hon. T. H. Paynter has served those that seek office under the Government well. A more faithful advocate of their claims could hardly be found. He has bravely stood by the boys that fought in the trenches. Since the inauguration of Cleveland as President, Mr. Paynter has given his en- tire time and his cash to see that his friends got a hold of the Government tent. We admire this unselfishness in him. We have no respect for the man that, as soon as he gets an office, forgets and spurns those that fought his battles. Thomas is not that kind of a man. All honor to him for his fidelity to his political friends. Some of his appointments are not giving the satisfaction he would, we judge, be pleased to see them give, but we suppose he has done the best he could under the circumstances. Mr. Paynter has made it a point to hustle Republicans out and Democrats in." A Rare Case. A special from West Union, O., says: "On March 8 a perfectly developed girl baby was born to Mrs. Bertha Carson, of Bradyville. The attending physician, Dr. R. W. Purdy, informed the mother that an unusual experience would be her lot in a short time. Fifty-one days afterwards Mrs. Carson was taken ill, and the result was the birth of a girl baby, weighing ten pounds. The physicians declare it to be one of the rarest cases known to the medical profession, but two other cases having occurred of which there is any record. County Court. Mary S. Grove qualified as adminis- tratrix of J. C. Grove, with T. C. Campbell as surety. Appraisers: John W. Os- borne, James Earnshaw and Thomas Pol- litt. John W. Alexander, ex-Sheriff, and his deputies J. C. Jefferson and S. P. Per- rine produced their delinquent list of tithes for 1892, which was sworn to and allowed as a credit on the tithes charged to them for said year. Maps All Gone. The maps of Kentucky sent to this office by State Railroad Commissioner Poyntz for distribution are all gone. There was a rush for them yesterday afternoon, and the supply was not equal to the demand. LECTURES AND CONCERTS. Entertainments of a High Order Should be Encouraged—The New York Stars. Complaint has been made that Maysville does not patronize entertainments of a high order, good lectures, good concerts, etc., and does patronize those of lower degree, and hence those of the latter kind are the only ones which come here. There is probably something in this, but it is among the hopeful signs of the times that during the past season a new order of things seems coming about. For the first time, it is believed, lectures, such as that given by James Lane Allen and others, have received such en- couragement as to warrant others of a similar kind. Any community has to be educated in this regard, and it is only in time that the peo- ple come to know and appreciate what is best in art or anything else. Meantime, those of our citizens who are interested in furnishing a high order of entertainments, even though it may be at some pecuniary loss for the time being, are to be applauded. One good concert at a dollar is better than four poor ones at 25 cents, although it may not "draw the crowd." One such concert as that recently given by the New York Stars is, in its way, a musical edu- cation. Of course "the crowd" could not appre- ciate it all, but the audience present the other evening showed that there are plenty of people in Maysville who can, and it is to be hoped that such, if they can be found, will come again. One of the most attractive features of this con- cert was the naturalness and simplicity of the musicians themselves; there was no "staginess," no airs, not a bit of foolishness from beginning to end. It was simply "business" all through. The pretty, simple figure of Miss Drescher as she appeared on the stage will not be forgotten. Just so simple, in all respects, is all true art. "Playing to the pit," or to the "gallery gods," whether on the stage, the lecture platform—or in the pulpit even—is a bad business. It is to be hoped that these clever people may be seen here again. D. D. C. The World's Columbian Exposition Will be of value to the world by illustrating the improvements in the mechanical arts, and emi- nent physicians will tell you that the progress in medical agents has been of equal importance, and as a strengthening laxative that Syrup of Figs is far in advance of all others. Real Estate Transfers. John W. McGee and wife to John Price, Sr., a lot in Maysville; consideration, \$ 125 00 J. W. H. Powell and wife to D. B. Mitch- ell and D. T. Thomas, 5 acres near Hel- ena Station; consideration, 1 00

## **CONDITION OF KENTUCKY CROPS.** The Outlook Far From Discouraging. Weekly Report of the State Weather Service. The weather and crop bulletin of the Kentucky Weather Service for the past week is as follows: The average weather conditions of the State for the past week show a slight im- provement over those reported for the two preceding weeks, though they were far from being all that might be desired. The week was characterized by an ab- normally low temperature, but little sunshine and a generally excessive rain- fall. The latter came in the form of heavy showers, and was somewhat un- evenly distributed, the greatest being in the western and southern counties. The average fall for the State was 1.50 inches. The protracted period of rainy weather without sunshine is exerting a detri- mental influence upon most farming inter- ests. For nearly a month it has been impracticable to do much plowing on ac- count of the wet soil. Farmers are greatly behindhand with their work, especially the plowing for and seeding of corn, much of which yet remains to be done. That portion of the crop in the ground is not germinating well, and is coming up poorly. A great deal of the corn ground will have to be replanted, particularly the bottom lands, which the heavy rains have overflowed. Complaint of cutworms is made from several of the southern counties of the State. The crop is in generally better condition in the northern and eastern counties than in other sections, but, taken as a whole, the prospects for it are not very bright at present. Small grains of all kinds continue to improve, and their condition is all that could be de- sired. The growth is perhaps a little too rank in places, but apart from this, no fault can be found. Meadows and grasses of all kinds are also reported to be in the best condition. Tobacco plants are as a rule in good condition, though rather too small to set out as yet. Reports from a few points indicate that they have suffered some in- jury from the damp, cool weather, but it is thought that favorable conditions will quickly restore them. In some places in the southern and western counties the plants are ready to set, but the ground can not be prepared for them until it dries out. Some few were set out in Warren County during the week. The indications are that the acreage will be unusually large this season. There is general complaint that gar- dens are not doing well. They are mak- ing but little progress, and reports that potatoes are rotting continue to be re- ceived. Strawberries have fully devel- oped, but from lack of sunshine are not ripening. The indications point to a large but late crop. Despite the damage reported from re- cent frosts, it is believed that, taking the State as a whole, the fruit crop will be at least up to the average. From some localities there are reports of the almost total ruin of all kinds, and in others only particular sorts appear to have suffered. The correspondent in Boyle County states that there will be plenty of peaches there, but that the apples have been completely killed. Reports of a similar character have been received from a few other places, but the general tenor of in- formation from all parts of the State is decidedly favorable. The general outlook is far from discour- aging. It is true that detrimental weather conditions have prevented the develop- ment of growing crops, but except the pos- sible injury to corn, there is no set-back from which they will not recover with favorable weather conditions. The weath- er prospect at the date of this report is for fair and slightly warmer, with light showers in the eastern and central parts.

### **PERSONAL.** Judge Pugh, of Vanceburg, is in town. Dr. Russell White, of Cincinnati, is here on a visit. Captain George Collier, of Chicago, is spending the day in Maysville. Misses Iva Bridges and Ola Wheeler will leave in a few days for Decatur, Ill., to visit Miss Lelah Ross. Mrs. Cal. Arthur, of Shannon, was the guest of Mrs. F. F. Gerbrich Wednesday. She was en route home from Cincinnati. Senator Wall came in from Frankfort last night to attend to some business matters that demanded his presence here. Dr. M. H. Davis and Mr. Will Thomp- son, of Mayslick, returned yesterday after- noon from their trip to Philadelphia and Washington. Miss Anna Means and Miss Lida Bridges will leave in a few days for Chi- cago to visit friends and attend the World's Fair.

## **COUNTY CULLINGS.** Items Picked Up by the Bulletin's Cor- respondents in Mason and Elsewhere. GERMANTOWN. Miss Ida Walton returned to her home in Cov- ington on Tuesday. Miss Mary Minor, of Augusta, will spend a week with her aunt, Mrs. M. H. Walton. Died, May 10, David Grigson, aged about sixty years. He had for many years been an active and faithful member of the M. E. Church. Buried at Hillsdale cemetery. Moore Against Parker. The Superior Court in reversing this case, says: "A promissory note which contains an uncon- ditional promise to pay can not, unless assailed for fraud or mistake, be converted by oral evi- dence into a conditional promise to pay. There- fore, in this action upon such a note it was not competent for the defendant, in the absence of an allegation of fraud or mistake, to allow by oral testimony that the payee agreed that if he should "become dissatisfied" he should have the privilege of returning the certificate of stock for which the note was executed and have the note returned to him." Cochran & Son, Edward W. Hines for appellant; Thomas H. Hines for appellee. This case and that of Moore against Traxel are two of the suits growing out of the hedge fence company organized here a few years ago. It's a little singu- lar that one should be reversed and the other affirmed. When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria. GRO. W. SULSER, law, fire insurance. THE MARKETS. GROCERIES AND COUNTRY PRODUCE. DAVIS. **DRUNKENNESS OPIUM** HABIT Permanently Cured, without pain or shock to the patient. For information and terms address THE KEELEY INSTITUTE, PLAINFIELD, IND.

## FROM FRANKFORT.

### Doings of the General Assembly--Fifth Class City Charter.

#### The Mason-Foard Company Anxious to Lease the Convict's Labor.

The charter for cities of the fifth class was passed Thursday, by a vote of 20 to 7. Judge Sims reported from the Judiciary Committee that the dog bill contained no unconstitutional feature, but declined to express any opinion as to its expediency. The bill was ordered to its second reading and to be printed.

The committee unfavorably reported the resolution authorizing the encampment of State Guards at Chicago this summer. It was put on its passage and was defeated; yeas 26, nays 28.

It was announced that the fourth class city charter bill will reach the House today for final consideration.

The bill to unite the offices of Commissioner and Receiver of Circuit Courts was ordered to its second reading.

The Hissam bill for the prevention of pools and pool selling received a second reading over the objections of Messrs. Roberts and Kremer, who urged that the passage of the bill would interfere with rights to property already invested in the prohibited business.

Mr. Mathers, from the Charitable Institutions Committee, reported a joint resolution, based upon a letter from Dr. Stewart, Superintendent of the Feeble Minded Institute, conveying some information relative to pupils who have been inmates thereof for more than twelve years. The resolution recited that there are now thirty such inmates whose stay has lasted from twelve to twenty-eight years, who are not capable of mental improvement, and whose per capita allowances have been regularly drawn from the State Treasury, although, as the Superintendent admits, these pupils are now kept as servants. The resolution further recites that these allowances shall at once cease to be paid and the pupils named be returned at once to their respective homes.

In the House the conference report on the bill relating to husband and wife was adopted and the amended bill was passed. The bill enlarges the property rights of married women by allowing them to hold corporate property separate and apart from the husband. The provision to prohibit the intermarriage of first cousins had already been stricken out.

It is very evident from recent developments that the Mason-Foard Company is very anxious for another lease of the convict labor. Three of the Sinking Fund Commissioners outvoted Governor Brown and Secretary of State Headley one day this week and accepted a proposition from the company for the temporary lease of 100 to 500 convicts. Attorney General Hendrick was to draw up the contract. This he did, and at a subsequent meeting of the Board, it was presented duly signed by the company. A special says Governor Brown earnestly insisted that the proposed contract was unlawful in its provisions, and because of the omission of all mandatory requirements of the law. He declared that the contract, in any form, was absolutely a violation of law, and, besides, proposed to surrender the State once more to the Mason-Foard Company. He read from the new penitentiary law, approved May 5, 1893, showing that the Board had no right whatever to make a contract privately with any person or persons until it had duly advertised for bids and failed to effect a contract with the highest bidder. He declared that the contract omitted almost every requirement of the law. He cited the following omissions required by law:

The law provides that a condition precedent in every contract requires a stipulation of a specified price per head for the labor of the convicts per day. This was not settled by the contract. The contract did not provide for forfeiture of lease for nonpayment. It did not require the contractors to conform to the rules and regulations of the prison. It authorized drivers and warehousemen to work outside the walls, in violation of the law and the Constitution. Governor Brown then cited the law requiring the members to take an oath before performing any duties under the act. This, of course, developed the fact that the previous proceedings were illegal. The Attorney General moved that a Notary Public be summoned, which carried, and the board was duly sworn by Assistant Secretary of State Leigh.

The Attorney General explained that he had never read this new law, as it had not been printed. He said, however, that even after what he had heard of the new law as read by the Chairman, he still believed the board could proceed to perfect the proposed contract. He contended that a price was fixed in the

contract, and that it was limited to June 10.

Treasurer Hale explained that the reading of the new law brought up the question again as to the authority of the board to make a contract, and suggested that it might be proper to reconsider.

The Governor moved to reconsider the previous action of the board in regard to this contract. Secretary Headley seconded this motion. Attorney General Hendrick called for the ayes and nays. The motion was lost. Ayes, Hendrick, Hale and Norman; nays, Brown and Headley. The Attorney General then moved to adjourn and the session ended.

CHOCOLATE icing—Calhoun's.

TORNADO policies—W. R. Warder, agt.

A. M. CAMPBELL, real estate, loans and collections.

CABINET photographs, \$1.99 per dozen at Parker's gallery.

CALL on Duley & Baldwin, 205 Court street, for first-class insurance.

D. M. RUSYON, insurance office, Court street, over Mitchell, Finch & Co.'s Bank.

"A WOMAN'S Devotion," for the benefit of the Washington Fire Company, May 16, 17 and 18.

THE Superior Court has affirmed the case of Hamilton versus Minogue, taken up from Nicholas.

DR. C. W. MONTGOMERY, of Aberdeen, wedded Miss Nellie V. Brooks, of Huntsville, Ala., this week.

THE State Medical Association (Allopathic) is in session at Frankfort. Nearly 150 doctors are in attendance.

READ Hill & Co.'s ad. in another column. They receive fresh strawberries Saturday afternoon for Sunday.

MR. THOMAS N. THOMPSON, of Ripley, is said to have obtained the highest price ever paid at that place for a pair of coach horses.

THE gold watches carried by Hopper & Co. are the best manufactured and guaranteed to be lower in price than elsewhere.

MR. CLARENCE MARTIN, who has been teaching school on Jersey Ridge, left this week for Delaware, O., to attend Michael's Pen Art Hall.

REV. R. G. PATRICK is attending the Southern Baptist convention at Nashville, and there will be no preaching at the First Baptist Church Sunday.

GIVENS & SAWYER, wholesale clothiers of Cincinnati, have made an assignment. Liabilities about \$10,000. The assets will fall considerably under that sum.

REV. J. N. PRESTRIDGE has resigned as pastor of the Winchester Baptist Church. He recently assisted Rev. R. G. Patrick, of this city, in a protracted meeting.

MR. W. H. FREDERICK has been awarded the contract for rebuilding the "Chenoweth residence" on the Fleming pike, recently bought by Mr. H. D. Watson.

THE fourth anniversary of the Epworth League of the M. E. Church will be celebrated next Sunday. The League at Aberdeen has accepted an invitation to be present.

J. A. REED, of Sardis, pleaded guilty in U. S. Circuit Court at Covington this week to a charge of violating Uncle Sam's revenue laws and was fined \$100 and sentenced to thirty days in jail.

JOSEPH ARCHDEACON, who underwent a difficult surgical operation at Cincinnati some weeks ago, was taken back to the Good Samaritan Hospital yesterday. He had a relapse a few days since, and his chances for recovering are not encouraging.

LADIES, your attention is invited to the pretty hairpins and hatpins displayed at Ballenger's jewelry store. He has the latest novelties always on hand. You will make a mistake, if you fail to call on him when you need any article in the jewelry line.

THE Christian Church at Paris will probably erect a new and larger house of worship at an early day. The Kentuckian says: "Sunday morning Elder J. S. Sweeney had announced no special subject, but the crowd was too large to be admitted, and many were turned away."

THE residence of Lefe Fulton, a few miles north of Aberdeen, burned to the ground one day this week. All the household goods were lost. The family were away from home at the time, and the origin of the fire is not known. The loss on both the house and contents is said to be pretty well covered by insurance.

THE State Board of Equalization was in session at Frankfort this week, but has adjourned till May 23. The Board found that many counties had not yet made the returns regarding real estate assessments, and circulars were sent out to the various clerks notifying them to make the proper returns by the next meeting.

## SAM JONES AT OWENSBORO.

### That City Awakened as Never Before. Hundreds of People Turned Away.

A Courier-Journal special from Owensboro May 9 says: "The most ardent, and, a few days ago the most vigorous, opposer of Sam Jones is now bound to take back his assertion that the Tabernacle would never be paid for, never be filled with people, and that the evangelist would not stir this town as it was never stirred before. Before the collection was taken up last night the building was paid for and the property of the church people of the city. If a well acquainted former resident were to drop in Owensboro now he would not believe his own eyes when he saw people whom nobody ever before saw in a church earnestly advocating religious matters in the street. Notwithstanding the large number of people in the city saloons are doing a small business and at the morning service to-day when the proposition was made for all those who would work and vote to put whisky out to stand up the vast audience of 6,000 almost to a man arose. Hundreds of people were turned away unable to even get standing room."

The revival closed Wednesday night, and most of the pastors of the city are now engaged in protracted meetings.

Speaking of the Jones revival, the Messenger says: "At a recent service a reporter tried to count those who went forward in response to confess conversion and ask for prayer. He counted thirty in a half minute, and then the surging and crowding through which rushed to where the preacher stood made a count impossible. There must have been at least 1,200 who went up. The meeting which from a Sam Jones point of view, had bid fair to be a failure, suddenly became a thing of vast life and strength, and some of the preachers were almost overcome by the sight."

W. J. WALLACE was appointed postmaster at Lenoxburg, Bracken County, yesterday.

"A WOMAN'S DEVOTION," for the benefit of Washington Fire Company, May 16, 17 and 18, 1893.

MR. RICHARD CORDRY, who lives near Dover, has a peach orchard of three hundred trees, which are loaded with fruit.

ANOTHER waif was found at the entrance to a home near Lexington one day this week. The child was about three weeks old.

PROFESSOR PECHHAM, of Ann Arbor University, and Mr. E. S. Hoyt, a manufacturer of gas stoves, are here investigating the Harris fuel gas.

JAS. J. SHACKLEFORD, of Myall & Shackelford Carriage Works, Maysville, was in the city Monday and sold several handsome jobs.—Carlisle Mercury.

ANDREW GARRETT, of the West End, was given a fine of \$25 in the Mayor's Court and sent to jail ten days for carrying concealed a deadly weapon.

MAYVILLE DIVISION No. 6, U. R., K. of P., will give a drill on the streets of Augusta Tuesday, May 23, and attend the meeting of the Augusta lodge that night.

DR. WM. H. CURRAN, at one time a prominent physician and surgeon, died at his home in Claysville, Harrison County, April 23, of paralysis, aged sixty-two years. Deceased was a brother of the late Thomas A. Curran of Dover.

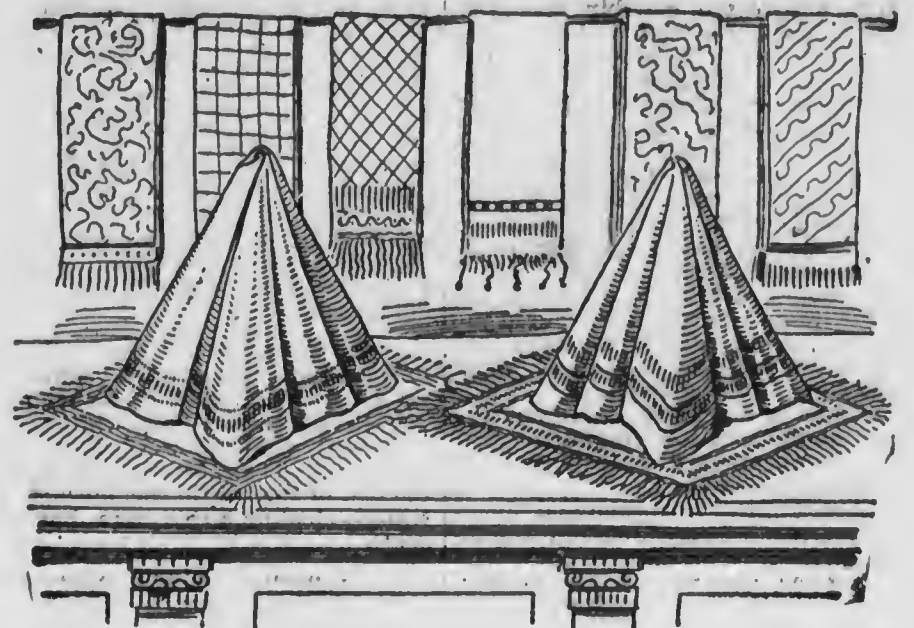

THE handsomest line of banquet and piano lamps ever shown in the city can now be seen at P. J. Murphy's jewelry store. Also onyx top tables, gilt, silver and brass tables, and the finest line of fine jewelry in the city. Successor to Hopper & Murphy.

THE row in the Owenton Baptist Church over the attendance of the membership at the Owenton fair has not abated, and the controversy has been carried on in the Owen News to an extent that the pastor of the church, Rev. Dr. Moody, refuses to preach further until the matter is settled.—Paris Kentuckian.

THE Winchester Democrat says Doc Cates, the epileptic who was here a few days ago, uses his affliction as a means of securing money from the charitable. Some of the Maysvillians who saw Cates have a fit on Market street thought there was "method in his madness." The Democrat says: "For his own sake and that of other people, he should be confined."

At the eighth annual meeting of the Kentucky Homoeopathic Medical Society to be held in Danville next week, Dr. J. T. Strode will read a paper on "The Obstetrical Forceps," and Dr. Robert Pepper, of Huntington, a paper on "Carbo Veg. in Postpartum Hemorrhage." Dr. H. M. Marsh, formerly of this city, is Chairman of the Committee on Arrangements and also Chairman of the division of the programme devoted to Obstetrics.

## REPUBLICAN CONVENTION.

The Louisville Meeting Elects Officers and Adopts Resolutions.

LOUISVILLE, May 12.—Less listlessness characterized the delegates at the opening of the National league convention than was manifest the previous day, for the reason, possibly, that suspense as to the result of the Kentucky derby was over. Moreover, the convention had practically thrown away the first 24 hours after the call to order, and was anxious to get through. Nevertheless, though the delegates were alert and ready for controversy, apparently, they were slow in getting seated, and when President Clarkson came down the center aisle the house was scarcely half filled.

Mr. John F. Burke, president of the College league, moved and secured the adoption of the rules of the Fifty-first congress, in so far as they shall apply to the rules of the convention.

Without a moment's argument the report of the location committee, giving the convention of 1894 to the city of Denver was adopted.

Messrs. Platt of Louisiana and Jones of Denver, both colored, offered resolutions in agitation of redress for White Capping and mob rule against negroes, especially in the south, and made vehement speeches in support thereof; but after some confusion and dispute a resolution was adopted that these and all other resolutions go to the committee without debate.

Mr. Shane of New York tried to get a special consideration for a resolution condemning the action of the Union League club of New York in refusing to admit young Seligman because of his Hebrew blood, but that went the way of the others.

The convention approved the report of the special committee, naming Denver as a place for the next meeting and designated the date as the second Wednesday in May. The report of the committee on platform was presented by Delegate Sedgwick of Rhode Island.

The committee on resolutions made a lengthy report. After "pointing with pride" to the passage of the law providing for the safety of life and limb of railroad employees, a system of arbitration, to adjust the differences between capital and labor, was recommended.

The employment of private armed forces represented by the Pinkertons and local detective agencies, was denounced.

The suppression of all gambling, "whether in food products or by means of lottery tickets," was demanded.

The foreign policy of Harrison and Blaine was indorsed and a constitutional amendment making a president ineligible to a second successive term was recommended; also to the favorable consideration of the Republican clubs of the United States as a matter of education the question of granting to the women of the state and nation the right to vote at elections on the same terms and conditions as male citizens was recommended.

The first ballot for president of the Republican league resulted as follows: M. H. DeYoung, California, 406; W. M. Tracey, Illinois, 902; General W. H. Hastings, Pennsylvania, 413. Tracey's election was made unanimous.

All the resolutions, except those relating to the presidency, gambling and woman suffrage, were adopted by acclamation. The others were adopted by a majority vote.

Then the platform was adopted as a whole and the roll was called for members of the national committee.

Thanks were voted to retiring President Clarkson and Secretary Humphreys.

A letter from General Master Workman Powderly of the Knights of Labor was referred, without reading, to the incoming committee.

John P. Dolliver of Iowa made a parting address, and at 5 p. m. the convention adjourned sine die.

## CONDENSED NEWS.

Short Items From Various Parts of the Country.

J. Bailey Moore, a well known newspaper correspondent and historian of Canada, died in Manchester, N. H., Thursday night, aged 78 years.

An excursion party of about 100 members of the Florida State Press association, including 20 ladies, are en route to Chicago and the world's fair.

The residences of three prominent citizens of Muscatine, Ia., who are prosecuting saloon cases, were blown up by dynamite. No fatalities resulted. The houses were completely wrecked.

Secretary Carlisle has received a telegram from ex-Secretary Fairchild declining to serve on the commission to investigate the New York customhouse. His business engagement will not permit.

In a fire in the American rubber works at Cambridge, Mass., a Portuguese laborer was burned beyond recognition. The fire was caused from an explosion of naphtha and several workmen had narrow escapes.

Governor Hogg of Texas has refused to interfere in the matter of the execution of the death sentence in the case of Luttrell and Carlisle, who will be hanged at Sherman for the murder of Scherman in Grayson county.

Tom O'Rourke, on behalf of George Dixon, has accepted Johnny Van Heest's challenge to fight for \$2,500 a side. The Police Gazette belt and the championship, providing the Coney Island club offers a suitable purse.

A suit for infringement and damages has been brought against the Winchester Avenue and West Haven electric road in New Haven, and the Westinghouse corporation in Pittsburg and New York to restrain them from using the trolley.

## Base Ball.

At Philadelphia—Philadelphia, 9; New York, 15.

At Brooklyn—Brooklyn, 8; Boston, 9.

At Baltimore—Baltimore, 3; Washington, 6.

At Pittsburg—Pittsburg, 4; Louisville, 6.

At Chicago—Chicago-Cincinnati game postponed on account rain.

At St. Louis—St. Louis-Cleveland, no game; rain.

## Painters Get Their Demand.

SPRINGFIELD, O., May 12.—The painters who struck for 25 cents per hour for nine hours instead of 22 1-2 cents for 10 hours, won and returned to work.

## Mississippians Blow Out the Gas.

CHICAGO, May 12.—Frank A. Gallagher and W. H. Gass, aged apparently about 30 and 35, respectively, and registered from Akolona, Miss., were found in bed unconscious at the Farwell House, Halstead and Adams streets, yesterday. It was the old story of blowing out the gas. Both men were taken to the county hospital, where, it is said, their chances for recovery are slight.

## Boardinghouse Disaster.

NEW ROCHELLE, N. Y., May 12.—Matthew O'Brien was burned to death and William Whalen so badly burned that he will probably die, by a fire which destroyed the boardinghouse of Mrs. Graham on Main street. Arson is charged. The damage to the building amounts to \$2,500.

## Oil Train Wrecked on a Trestle.

WHEELING, May 12.—A southbound oil laden freight train on the Ohio River railroad was wrecked while crossing a trestle. Five cars were thrown from the track. The cars caught fire and 250 feet of the trestle was burned. Two tramps stealing a ride were burned to death.

## Appointed by the President.

WASHINGTON, May 12.—The president has appointed J. Hampton Hoge of Virginia to be United States consul at Amoy, China, vice Edward Bedloe of Philadelphia; and John A. Michel of Texas to be collector of customs for the district of Brazos de Santiago.

## Two Appointments.

WASHINGTON, May 12.—Attorney General Olney has appointed S. M. Walker of Martinsburg, W. Va., assistant district attorney for West Virginia and W. H. Mann of Lynchburg, Va., assistant district attorney for the eastern district of Virginia.

## Fire in Cincinnati.

CINCINNATI, May 12.—The firm of Engleek & Company wood, turners, doing business on Hunt street, suffered a fire loss of \$12,000 Friday morning.

## KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

What is

# CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

## Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

Dr. G. C. Osgood, Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

Dr. J. F. Kinchloe, Conway, Ark.

## Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. Archer, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

## DAILY BULLETIN:

You know how it is your self. Doesn't this picture bring up the good days of your youth? How we did enjoy the turkey mother roasted! Well, let us be thankful for the rare blessings vouchsafed us to-day, and with more mature judgment HENRY ORT proposes your good health and invites your attention to the proverb,

## "Enough

Is as Good as a Feast."

But at the same time he invites your attention to his stock of goods, such as

EXTENSION TABLES, DINING CHAIRS, SIDEBOARDS, ETC.

# WORK FOR US

a few days, and you will be started at the unexpected success that will reward your efforts. We positively have the best business to offer an agent that can be found on the face of this earth. \$45.00 profit on \$75.00 worth of business is being easily and honorably made by and paid to hundreds of men, women, boys, and girls in our employ. You can make money faster if you work for us than you have any idea of. The business is so easy to learn, and instructions so simple and plain, that all succeed from the start. Those who take hold of the business reap the advantage that arises from the sound reputation of one of the oldest, most successful, and largest publishing houses in America. Secure for yourself the profits that the business so readily and handsomely yields. All beginners succeed grandly, and more than realize their greatest expectations. Those who try it find exactly as we tell them. There is plenty of room for a few more workers, and we urge them to begin at once. If you are already employed, but have a few spare moments, and wish to use them to advantage, then write us at once (for this is your grand opportunity), and receive full particulars by return mail. Address, TRUE & CO., Box No. 400, Augusta, Me.
